C1GARS—A NEW ARRIVAL.—10,000 El Divan,
4,000 La Josephue,
For sale on Broadway at
dec 2.

L. G. & C. ROBERTON'S,

Pure Wines and Liquors, for Medicinal
Purposes.

PHYSICIANS, Druggists and invalids have often experienced the almost impossibility of procuring a pure wine
or liquor in the country, when it becomes necessary to use
it for the restoration of health. The arrangements of the
Graffenburg Company for the purpose of guarding against
funposition and adulteration, both in Europe and thisecomtry, are complete, and any bottle bearing their seal, may be
regarded as unquestionably pure and unadulterated.
In importing from New York what is presumed to be the
purest article of

Port Wine and Brandy,
hat has been offered for sale in the city, taseubscriber has
not been governed by motives of pecuniary interest.
He therefore offers these articles in cases of ONE DOZEN
RACH at New York prices, viz: \$12 perdozen.

Persons who may wish to obtain single bottles of either,
may do so of
Opposite State Bank, Union street, Alexi Mackesziz,
Agont, Graf. company.
Just arrived per steamboat California, and for sale chemp.

Jan 2—1y.

GEO. L. SLOAN. THE understand baying proposed the exclusive right

THE FARMERS OF TENNESSEE.

THE undersigned having procured the exclusive right to this State, effers forsale, First Premi um Machine:

MANNY'S PATENT ADJUSTABLE NONTHERN ILLINOIS REAFER AND MOWER.

Awarded the first premium for mowing, and the second for reaping, at the New York State Fair, in the great trial at Geneva and New York, in July, in competition with eleven other Machines; awarded a Silver Medalat the Ohio State Fair for the best reaper and mower; and received the highest award at the Vermont and Michigan State Fairs, forthe best reaping and mowing machine.

The true merit of this Machine has given it a great triumph over all others, and being a perfect combination of a Reaper

The true merit of this Machine has given it a great triumph over all others, and being a perfect combination of a Resper and Mower, it comes to the farmer with double value; and it is clearly demonstrated to be the only successful combination of Resper and Mower.

As a mower it is simple and as perfect as though constructed expressly for mowing, and as a Resper it is assimple and perfect as if constructed for resping only;—all the change that is necessary from one plan to the other, is to insert we remove a loose platform.

With a pair of horses, one drver, the Machine will mow from 15 to 20 acres per day, depending on the ground. It will resp the same quantity requiring two hands, in running over broken ground. The driver can lower or elevate as he may choose. he may choose.

The price of the Machine, delivered at Nashville is \$250, or they will, if ordered, be delivered at Memph's, or any point on the Mississippl, between there and Mili's Point, or at any point on Cumberland river, between the State line and Nashville, or at Chattanoogs, or at any point between there and Nashville, on the Hallroad, at the same price. They are manufactured in New York; and as it will require sime to bring them on, all who wish to procure one for the next season, would do well to address me as soon as convenient, at Nashville.

Ap. 5.

L. P. CHEATHAM.

BLACK LACE BONNETS. Just received Materials for making 500 Bo Plain Hats, \$6 00. Rich Full Trimmed Paris Flower, \$7 to \$8. The Finest Materials and Superior French Trammings; likewise a large Stock of 1,000

MEDICAL.

DR. ARNOLD'S UNION PILLS. On Assono-Dana Sin-I consider it but an lice to yourself and the community, to state the you the vigreat benefit I have received from the use of your Union. Pilts. Having been for quita a number of years, greatly troubled with dispepsia, and constipation of the bowels; at times alarming me greatly. I used every other remedy, almost that I ever read or head of for the obsease, all without the least beneficial effect. I had almost come to the belief, that it was useless to my any meer; as I labored under great debility, and my sharmed was greatly immed by taking the different Pills, medicine, and, but or hearing my neighbors speak so farmently of the beneficial effects of your Union Pills, I concluded to give them a trial, and bought a fifty cents vial, and commenced their are. From your Umon Pills, I concluded to give them a trial, and bought a lifty cents vial, and commenced their use. From the first does of one Pill I was satisfied it was the medicines for me. I have not yet used quite one vial, and crin now say to you with the utmost pleasure, that I have not for the last ten years feit as well, or enjoyed such good health, as I have since commencing the use of your Pills. I would take no sum for the good these Pills have done me, and almost every branch of my family have used them with the same happy effect. At times some of the negrous have had somptoms of fever—at the first complaint I have given them one or two Pills, and tweer had to repeat the dose but ones, which effected a cure. Your other medicines used for one, which two Phis, and rever and to repeat the time but once, which effected a cure. Your other medicines used by my family, have had the treat lappy effect. I shall always keep a supply of your Pills on hand, and I think that no one, laboring as I have under great debility and dyspepsin, with all their eril consequences, but what would, after a use of your med-

idiaes, join me in saying the series of thesis.

Respectfully WW MASTERSON.

MEDICAL.

REAT CURE FOR DYSPEPSIA!—ANOTHER SC TIFIC WORDER!

THE TRUE DIGESTIVE PLUID, OR GASTRIC JUICE, PREPARED from Rennet, or the Fourth Stomach of the Ox, after the directions of Baron Lichig, the great Phy-siclogical Chemist, by J. S. Houghton, M. D., Philadelphia,

This is a truly wonderful remedy for Indigestion, Dyspepsa, Janudice, Liver Complaint, Consumption and Debuitt, curing after Nature's own method, by Nature's own Agent, he Gastric Juice.

If all a tea-spoonful of Pepsin, infused in water, will digest

Half a tea-specifial of Pepsin, infused in water, will digest or dissolve fere pounds of roast boof in about two hours, out of the storacch.

Pepsin is the chief element or digesting principle of the Gustric Juice—the solvent of the food, the purifying, preserving and stimulating agent of the stomach and intestines. It is extracted from the digestive stomach of the Ox, thus forming an artificial digestive fluid precisely like the natural Graftic Juice in its chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the point and evils of Indigestion and Dispepsia are removed just as they would be by a healthy stomach. It is doing stomers for drappities, during cases of Debility, Emerication, Nervous Declare and Dyspepsic Consumption, supposed to be on the verge of the grave. The scientific etidence upon which it is based in in the highest degree ourious and remarkable.

and remarkable.

Scientific Evidence.—Baron Liebig, in his celebrated work on Animal Chemistry, ages: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be prepared from the mucous membrane of the storageh of the Ox, in which various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would be in the animan storageh.

be in the autman stouach.

Dr. Preira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 25, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Priera.

Dr. Combe, in his valuable writings on the "Paysiology of Digestion," observes that "a diminution of the due quantity of the Gastrie Juice is a prayinger and all prevailing and all propagations of Decoration, and is attached that "a dispressible of the control of the due of the control of the dispressible of the control of the due of the control of the due of the control of the due of the due of the control of the due of the due of the control of the due of the thy of the Gastric Juice is a prantinent and an prevaining cause of Dyspepsia; " and he states that " a distinguished professor of medicine in Landon, who was severely afflicted with this complaint, finding every thing else to fail, had recourse to the Gestric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable."

Diet, "says: "It is a remarkable fact in Physiology, that the stomaches of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of ef-fecting a kind of artificial digestion of them in no wise diffecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lee &
Elanchard, Philadelphia, 1845, pp. 521-2,) says: "The discovery of Pepsin forms a new ora in the chemical history of
digestion. Frost rocent experiments we know that food is
dissolved as rapidly in an artificial digestive fluid, prepared
from Pepsin, as it is in the natural Gastric Juice itself."

Professor Dunglisco, of the Jederson College, Philadelphia,
in his great work on Human Physiology, devotes more than
lifty pages to an examination of this subject. His experiments with Dr. Benumont, on the Gastric Juice obtained
from the living human stomach, and from animals, are well

from the living human stomach, and from mimals, are well known. "In all cases," he says, "digestion occurred as perreprietor has been actuated by the certainty resulting from xparietize, that the most gratifying effects will be found atendant on its use. Desides those complaints which have seen named, the Philotoken may be used with advantage in the Abus, Protypass Uteri, Gravel, Dropey, Dyspopsia, and even in Consumption. In some of these, auxiliaries will be required to perform a core, and in others, it can actually as an auxiliary, or a pulliative to remove the temporary suffering.

The Philotoken is not offered as a cure for all the ills risely in the artificial as in the natural digestion occurred as perfectly in the artificial as in the natural digestion. Chemistry in the College of the University of New York, in his "Text Book of Chemistry," ange 380, says: "It has been a question whether artificial digestion occurred as perfectly in the artificial as in the natural digestion."

Dr. Chemistry, "ange 380, says: "It has been a question whether artificial as in the natural digestion occurred as perfectly in the artificial as in the natural digestion."

The Philotoken may be used with advantage in the University of New York, in his "Text Book of Chemistry," ange 380, says: "It has been a question whether artificial digestion."

In the fact that an Artificial Digestive Fluid, or Gastric Jaice, perfect the sampling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.
